**Public Comments:**

- A. **Colleen Bartlett-** would like to know if she can build her new house on an angle. As long as she meets requirements there is no ordinance saying you can't build on an angle.
- B. **Steve Davis-** asked if there is any intention of reopening the yard waste. Mayor Hite stated not at this time however, we might look into this in the fall during leaf season having it open for a small amount of time. It was stated if someone has an idea of a site to ask the DNR if this would be permitted. At this time we are still looking for a location that will be approved. Steve also inquired about the status of the Presbyterian church. Lisa received an email stating the committee was giving people until November to remove any items they would like.
- C. **Eric Gragg-** asked the council if they would consider selling the property east of the Quonset. We do not want to sell that property at this time
- D. **Lindsey Phillips and Dave Shanahan-** Discussion on the condition of North Park St where the pavement and gravel comes together. Dave stated there is always a street problem when you have pavement and gravel coming together. One option would be to look into putting a coating on the street, another option would be to put in a drain. These are costly solutions.

- C. Discussion was held by Tom German in regards to the semi parking lot. Tom would like to have two more parking spaces in the lot. He asked should trailers be licensed? Should this be for residents only? Do we need to add more spots? Council doesn't want to make it for residents only since some of the drivers do not live in the city limits and this is harder for Lisa to keep track of. Tom will get us a price on some material for the extra sites.
- D. Jim Reed inquired about the old school square lot that the city has left. He is interested in purchasing this to build a house on. This requires a resolution setting a public hearing so that will be on the agenda for the September 21<sup>st</sup> meeting.
