**Public Comments:**

- A. Bryan VanderMeiden from Midwest Sanitation was here to discuss trash and recycling options for the city. Bryan stated that Midwest was the company that had the recycling bin in the city. At the time this was paid for by the landfill however they are no longer paying for this. At the last meeting Midwest was the only one to turn in a proposal for recycling to the county. Bryan presented 3 options for the city. We can put another drop box in at the cost of \$222.00 for each time it is dumped and this will be billed to the City as the landfill is no longer paying for this. Option 2 was to do curbside recycling at the cost of \$9.15 if they own the 95 lb totes or if not it is \$11.79 a tote and the city would own the totes at the end of a 5 year term. The third option which Dustin stated we would not be interested in considering would be to have a proposal for Midwest to do all of the trash and recycling for the city. Bryan stated that it does cost more to recycle than it does to put it in the landfill. 10% to 15% residual does end up back in the landfill. Bryan stated that they haul the recycling to Cedar Rapids and Davenport. Since this was the first city council meeting Bryan has attended in the county in regards to the recycling and the city is not required to do anything it was decided to wait and see what other Mahaska county towns are going to be doing before making any decisions.
- B. Adam Eischen also stated that he would put together a proposal for the city after he found out what the recycling center would be charging him for a drop fee for recycling.
